Courage to Care: Advice from Culture of Care
Culture of Care is a student-led, staff-supported initiative designed to foster Hoosier-to-Hoosier care in the areas of sexual well-being, drug and alcohol awareness, mental health, and respect.

Being a Hoosier and having the Courage to Care means stepping up and intervening in situations where others could be at risk. Hoosiers show their courage to care in actions both big and small, such as:

- Referring a friend to a campus resource for assistance. Educate yourself about the campus resources available.
- Getting medical assistance for someone who needs help. The Lifeline Law provides legal immunity if you make the call and stay to help.
- Stepping in when a friend has had too much to drink. It may be hard to build up courage to step up for a friend. Don’t be afraid. Do the right thing.
- Speaking up and out when you witness—or experience—discrimination or bigotry.

2016 Student Employment Awareness Week

The IU Bloomington campus employs over 6,500 student employees each year through federal work study and other budgeted student employment resources. The IU Career Development Center promotes student employment as an educational factor in the personal and professional development of effective and productive citizens and as an economic factor in providing financial support for students in higher education. Many student employees pay for a significant portion of their college expenses through part-time employment opportunities, thus reducing the debt burden common among college graduates today. The Career Development Center recognizes student employees and their supervisors by sponsoring a week of activities during National Student Employment Awareness Week.

Check out some of the Student Employment Awareness Week events below. For a full list of events, go to the Career Development Center’s website.
